

What we offer:

- Psycho social support (brief counselling, support)
- Prescribe Suboxone for opioid use disorders
- Prescribe Naltrexone and/or other anti-craving medications for alcohol and other substance use disorders
- Take home Naloxone kits
- Referrals to community services for addiction and social services
- Trauma-informed care

Who we serve?

Any individual over the age of 16 who self identifies as struggling with addiction.

What to expect:

- You will be greeted by a receptionist and asked basic identifying information to register in our system
- Wait times will vary based on how many individuals are there
- You will complete an assessment with a member of our team
- You will be working with our team to achieve the goals that you have set (harm reduction, abstinence, etc.)

What to bring?

- OHIP card
- List of medications you are currently taking
